Objective

Mern Stack developer who knows the basics of HTML, CSS, JavaScript, and React, willing to create real-life web-based applications and advance my knowledge in current technologies. Searching for the possibility to study, develop, and work on innovative software projects.

Education

Bachelor of Computer Science and Engineering, **CGPA : 7.28**
K. S. Rangasamy College of Technology (Autonomous) 2022 – 2026

Skills

Programming Languages: Python

Web Technologies: HTML, CSS, JavaScript, React, Typescript

Database: Oracle SQL, Mongo DB

API & Testing: Postman

Analytics & Visualization: Power BI, Excel

Projects

Phish Shield – A Multi-Modal Gmail Security Extension Using Machine Learning and BERT for Phishing Detection

- Developed PhishShield, a Chrome extension for real-time phishing detection in Gmail using Machine Learning, BERT, and OCR.
- Implemented multi-modal analysis of URLs, email text, and screenshots to identify suspicious links and image-based phishing attacks.
- Designed an explainable decision engine with risk scoring and real-time alerts, providing users with clear reasons for detected threats.

Telegram Treasure Hunt Chatbot (@MysteryClueBot)

- Designed interactive user flow and message-based UI logic for a treasure hunt game using structured question–answer progression.
- Created dynamic clue display format and engaging user interaction experience for smooth gameplay navigation.

Student Status Converter (Hosteler to Day Scholar) – Frontend

- Developed a responsive user interface using HTML, CSS, and JavaScript to convert student status between Hosteler and Day Scholar.
- Designed form-based UI with validation and role-based interaction for easy status update workflow.

Internship

MERN Stack Developer Intern, Nithra Apps

- Make this as simple Developed full-stack web applications using the MERN stack in a practical work environment.
- Built dynamic user interfaces with React and developed backend APIs using Node.js through team collaboration.
- Gained hands-on experience in version control and team collaboration using Git and GitHub.

Achievements

- **Particapated** Appathan, salem – for developing a hospital management system.
- **Organized** Public librarian, Namakkal - for Organizing the event.

Certifications

- **Earned** Coursera certificate in Oracle SQL basics (2024).
- **Earned** NPTEL certificate in Introduction to Industry 4.0 and Industrial Internet of Things (2024).
